

**PRESS RELEASE
FOR IMMEDIATE DISTRIBUTION**

**2012 Joint Committee of Engineering Societies
Excellence in Teaching Awards**

NHSPE is pleased to announce that this spring; two extremely deserving individuals were awarded by the NH Joint Committee of Engineering Societies with the Excellence in Teaching Awards at the Elementary and High School levels. The Joint Committee was comprised of NHSPE, ASCE-NH, SENH, ITE-NH, IEEE-NH, ACEC-NH, SWE-NH, as well as the University of New Hampshire College of Engineering and Physical Sciences, the NH Teachers of Mathematics and the NH Science Teachers Association.

Applications were received from December to February, and the two winners were notified in April after review by the committee. In May, we will have the distinct pleasure of visiting each teacher in their school environment to present their awards to them in front of their colleagues and students. The winners this year were as follows:

Elementary School – Ms. Ann Smith, Matthew Thornton Elementary School, Londonderry.

High School – Mr. Paul Arsenault, Sanborn Regional High School.

Each winner will be presented with a plaque and \$250.00 stipend. We are very excited about this program going forward, and hope to build on the success in 2013.
