

**New Hampshire Society of Professional Engineers and the
NH Joint Committee of Engineering Societies
S.T.E.M. Excellence in Teaching Awards 2018**

The New Hampshire Society of Professional Engineers (NHSPE) has joined forces with other engineering societies, the NH PE Board, the University of New Hampshire, the New Hampshire Teachers of Mathematics and the New Hampshire Science Teachers Association to recognize deserving teachers at the elementary, middle and high school levels who are promoting S.T.E.M. curriculum in the classroom.

This year marks the 12th consecutive year of this exciting program, and we have had the pleasure of honoring many outstanding teachers throughout New Hampshire. These great teachers are the motivators and educators for our next generations of engineers, inventors, mathematicians, and scientists.

Our 2018 winners were as follows:

- Elementary School - Suzanne Cronin - Hampstead Academy - Hampstead, NH

- Middle School - Alison Gorman - Crossroads Academy, Lyme, NH

- High School - Robert Lalancette - Nashua North High School, Nashua, NH

All three of this year's winners were honored at a ceremony this spring at their school or at a school board meeting. Each teacher received a plaque honoring their achievement along with a stipend check.
